PREHUNG SYSTEMS

Our door systems make remodel easy. Doors are prehung in high quality jambs combined with hinge hardware in the color of your choice. They are not just durable but also very convenient. Our factory machined door systems ensure fit and smooth operating. The pre-drilled door and jambs will make adding your personalized door handle hardware a snap.

Whether you're looking for traditional, transitional or contemporary style door hardware, our selection of Weiser Locks will make it easy to find the right accent for your home.

DOOR SYSTEMS

1. Knock-Down (KD) or Fully Assembled Pre-Hung Door System (Handed)

- Ready to Install
- High quality primed finger joint, MDF or solid wood jambs
- Hinge hardware in the color of your choice
- Pre-drilled door and jamb for hassle-free hardware installation

2. PRO-FIT Door System - Reversible (Left or Right Handed)

- Frame and Door unassembled - KD
- Non-Handed
- High-quality primed finger joint jambs (St. Thomas, ON only)
- High quality MDF jambs (Abbotsford, BC, Calgary, AB, Edmonton, AB & Winnipeg, MB)
- Pre-drilled door and jambs for hassle-free hardware installation

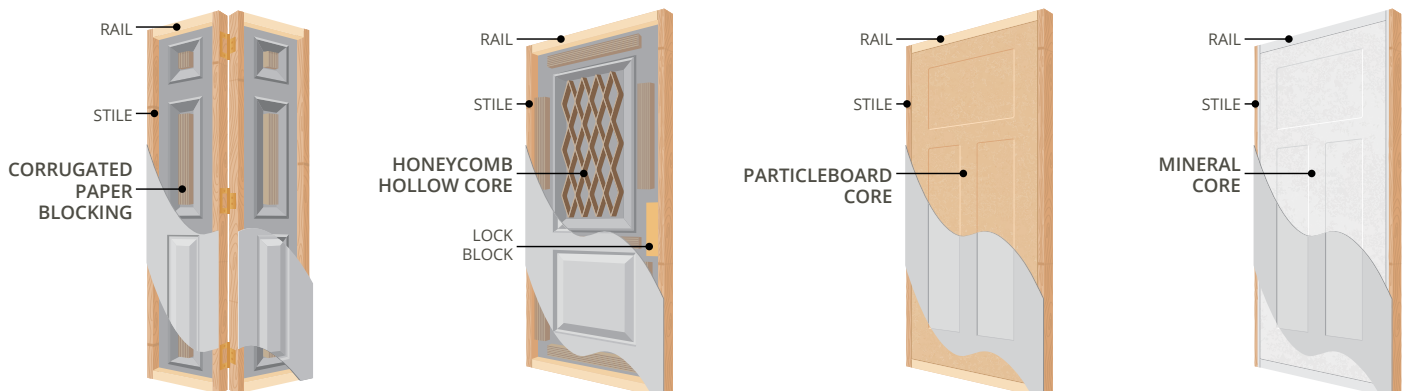

SOLID VS. HOLLOW CORE

What's right for me? While hollow core doors are widely found in today's homes, solid core passage doors can provide features that will make your home more comfortable.

- Greater sound protection
- Enhanced durability
- Better operating "feel"

Once you experienced a solid core passage door in your home, you will not want to be without. A solid core door provides greater privacy, stands up to the dings and dents of life and just feels better when operating. It is worth the investment!

All Lynden Door interior doors come with 2" wide top and bottom rails and can be trimmed up to 1" on each end.

PREFINISHED

Did you know you can order our moulded doors pre-painted white and our wood veneer doors with a factory applied clear coat? There is just no comparison to factory finished doors. Coated on all 6 sides, the doors become virtually maintenance free and keep their beautiful appearance for years to come.

For more information on our VOC-Free ClearLine finish scan QR code.

BIFOLDS

For every passage door there is a bifold!

Bifolds are the perfect solution in small spaces. Whether it is your closet, the office in your closet or your apartment laundry – bifolds are multi-functional. All our doors can be matched with a bifold solution. Reference our size guide for availability of moulded bifolds.

POCKET DOORS

Is space a precious commodity in your home? Consider replacing your swinging doors with a pocket door system! A clean, elegant solution to space restrictions, pocket door frames are available pre-assembled and ready to install. Any of our interior doors are suited for pocket door installations.

- Wooden built-up pocket frame and hardware
- Unassembled kits available up to 3'0" x 8'0" (Calgary, AB, Edmonton, AB, Winnipeg, MB and St. Thomas, ON.)
- Pre-assembled units available up to 3'0" x 8'0" (Abbotsford, BC.)
- Designed to accommodate doors up to 200 lbs.

LYNDEN VENTILATED DOORS

Ventilation solutions engineered to promote healthy and comfortable living.

Your door should do more than just open and close. The Ventilated Door was created to alleviate ventilation challenges in modern buildings.

Don't let Lynden Ventilated Doors be an afterthought in your next project.

AIRFLOW CHANNEL

Staggered ventilation slots on opposing faces form a discreet and elegant ventilation pathway.

PREFINISHED FLUSH

Durable. Stable. Affordable. Prefinished Flush doors arrive ready to install with a factory applied, uniform finish that is durable and low maintenance. The door edges are painted to match the face color.

Create stunning color contrast or complementary effects with contemporary colors and woodgrain textures. Consider a Rift Cut Coffee door combined with white door jambs and casings! These doors make it easy to create a feeling of style and elegance. Available up to 4'0"x8'0".
